

**Real Fun in ...the Real Florida<sup>SM</sup>**

Welcome to Rainbow Springs State Park. One of Florida's largest springs, the headsprings of the Rainbow River originates in this beautiful 1,472-acre park. Rich in natural beauty and cultural history, it is also a popular spot to swim, fish, canoe, picnic, kayak, tube, camp or stroll the gardens. The magnificent azaleas bloom in early spring, attracting visitors from around the country.

The day-use headsprings area, tube launch area and the campground differ in the activities they allow, so be sure to ask in advance.

The gardens and waterfalls are cultural assets that remain from the days when the headsprings were a private attraction. They have been renovated and replanted while preserving their historical significance.

The headsprings and campground have a variety of programs, such as ranger-guided walks, snorkeling expeditions and canoe trips at different times of year. Canoes and kayaks are available for rent at the headsprings. A food concession, gift shop and visitor center add to the pleasure and education of visitors. The picnic pavilions are perfect for family reunions and weddings.

The campground, about six miles from the headsprings, provides access to the river. More nature trails wind through the sandhill and oak hammock communities. Campground activities are for registered campers only. A camp store offers further amenities for overnight guests.

**Directions**
